(THIS PAGE MUST BE TURNED IN WITH APPLICATION)

The following rules govern all livestock shows including the plant show. It includes all areas in the Festival deemed as agricultural and all locations on the Festival grounds where animals are housed. The rules concern all participants, their families and any visitors to these areas. These rules are based on The Center for Disease Control Guidelines for the safe operation of livestock shows. These rules have been made policy by the Board of Directors of the Florida Strawberry Festival® and as such will be strictly enforced to ensure the Festival's continued ability to provide livestock exhibitions at the Florida Strawberry Festival® in future years.

1. Know that animals carry germs that can make people sick and have actually done so.
2. Any contact with animals should always be followed by washing of your hands.
3. There can be absolutely **NO FOOD** or **DRINK** in any form in the livestock or youth plant show areas. This includes visitors, family and exhibitors.
4. It is the responsibility of each exhibitor to educate visitors and report food and drink violations to appropriate parties.
5. No animal can be fed anything but livestock feed in appropriate containers. If an exhibitor is feeding an animal food other than livestock feed, the exhibitor has already violated Rule #3 above.
6. No one but the exhibitor or his/her duly appointed designee can have direct contact with the animals.
7. All animal areas will be set up so that the general public cannot directly touch the livestock.
8. These rules may change from time to time. It is the exhibitor's and guardian's responsibility to verify the rules prior to entering the show.

Each exhibitor and their legal guardian must sign a copy of these rules agreeing to be bound by them. These rules will be enforced uniformly and without exception. Any exhibitor not following these guidelines will be disqualified from the livestock or plant show and no one will be permitted to exhibit or sell the disqualified individual's plant(s) or animal(s) at the Florida Strawberry Festival®. If a disqualified individual is exhibiting in more than one event referenced above, the individual will be disqualified from all from the point the infraction occurs and will forfeit premiums and awards.

We have read and understand these rules and we agree to the following as stated above.

IAFE National Code of Show Ring Ethics

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event, which culminates with the animal entering the food chain, shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external application of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
